

# Whiteley Brooks Engineering

PLANT LIST

## CNC Milling and Turning Machines

- 19 Bridgeport Vertical Machining Centres  
All with rotary axis capability
- 1 Mazak Variaxis  
5 Axis Machining Centre
- 3 Kia CNC Lathes  
(Maximum Diameter 380mm)
- 2 Doosan CNC Lathes  
(Maximum Diameter 360mm)
- 1 Churchill CNC Lathe  
(Maximum Diameter 360mm)
- 2 Jones and Shipman Rotary Axis  
For Bridgeport Machining Centres
- 5 Nikon Rotary Axis (2 Tilting)  
For Bridgeport Machining Centres

## Conventional Machinery

- 6 Centre Lathes
- Pollard 4 Spindle Drill Press
- Jones and Shipman 1300 Universal Grinding Machine
- Jones and Shipman 540 Surface Grinder
- Snow Tub Grinder
- Speedhone Hone

keeping ahead of the game

# PLANT LIST

The plant also includes various off hand grinding machines and saws, finisher, rumbling machine (deburring), Guyson Bead Blasts, vacuum extraction for hazardous materials, engraving machine and small ultrasonic wash.

## Inspection Equipment Includes:

- 3 Axis Manual Coordinate Measuring Machines
- 2 x 3 Axis CNC Coordinate Measuring Machines
- Mitutoyo Shadowgraph
- Full Range of Micrometers and Verniers
- Granite Surface Plates
- Microscope and Measuring Software
- Full Range of Gauges and General Measuring Equipment

The Company occupies two factory units and has recently been extensively modernised with new office space and a purpose built inspection department. All raw materials are stored inside the premises.

Production Engineering is aided by two seats of EdgeCam CAM software, two seats of AlphaCAM CAM software and one seat of Solid Works Solid Modelling software.

Production Control is aided by Progress software.

Full Traceability is offered on all components.

ISO 9001/2000 Registered.
